

“This story shows that with love and support, adopted kids can overcome big challenges.”

—Dan O’Brien, Multiracial Adoptee and Olympic Decathlon Gold Medalist

“The author’s international journey across cultures, races and continents will uplift and edify any reader, regardless of background.”

—Honorable Andrew Young, Former United States Ambassador to the United Nations and Former Mayor of Atlanta

Inspirational True Story Shows How to Cross Cultural Barriers

Thomas Brooks faced a number of challenges at the age of eleven. As a young African-American, he battled racial stereotypes at school even as he searched for a place among his peers. In *A Wealth of Family: An Adopted Son's International Quest for Heritage, Reunion, and Enrichment*, Brooks tells of growing up in and around Pittsburgh as the only child of a struggling single mother. And in the midst of life’s normal chaos, she suddenly revealed to him that she was not his biological mother but that she had adopted him shortly after his birth in 1966.

It was a revelation that eventually led Brooks to investigate his heritage. As an accomplished young man with a master’s degree and a successful career in corporate America, he learned that his biological mother was a white woman living in Great Britain, and his biological father was a black man living in Kenya. His search for and subsequent reunions with them took him around the globe and had a profound impact on him as a person and as a son.

This intriguing book delivers:

- *A timely perspective on family relationship complexities arising from the increase in multiracial, multicultural, and multinational couples and children.*
- *Many insightful points of view on issues related to adoption, race, and reunion.*
- *The compelling true story of an adoptee’s journey across the oceans to find his biological mother’s European heritage, and the roots and culture of his African biological father.*
- *An inspiring account of the obstacles one young man overcame to escape the ghetto.*
